

# A KITCHEN WITH LARGE SCALE ELEGANCE

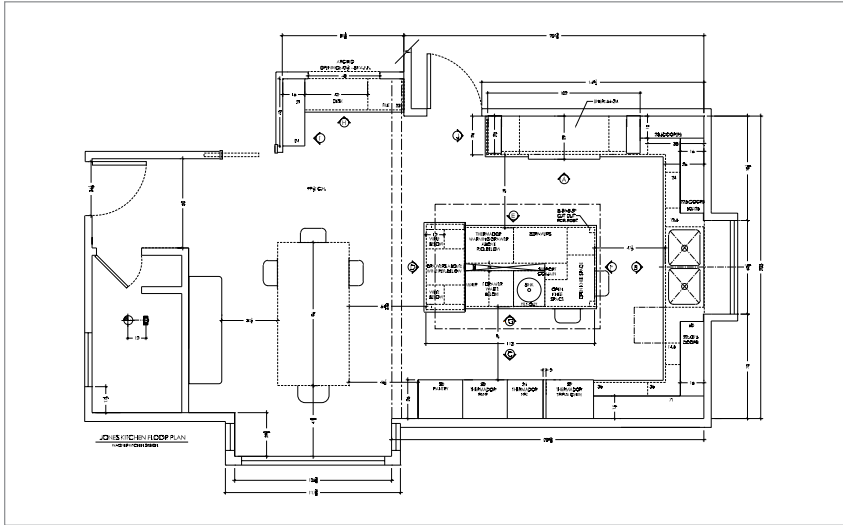

David Wagner  
WAGNER KITCHEN  
DESIGN  
Long Beach, California

"Our market demographics find us handling kitchen projects for many of the wealthiest people in the world, including U.S. Presidents and famous celebrities. And for over 30 years, we have enjoyed great success by proudly providing total hands-on, start-to-finish service.

"This kitchen was designed and built for a client requiring a look of elegance along with the ability to serve a meal for up to 50 guests without catering. Elegance was achieved with the drum ceiling, chandelier, and spectacular specially-made beaded finish cabinetry. An expansive, open design created an ideal work flow for ease of prep and cooking. And quite obviously, Thermador played a major role in both looks and performance.

"Using Thermador is a big asset for us. They are a great business partner. Our clientele love the products. And, Thermador provides excellent service, when needed."
